

First Annual Pump Track Time Trial

Saturday, October 3

Rules:

All riders will be able to practice the routes that they register to ride prior to the actual timed laps, please see the schedule for practice and race anticipated timing. Timing for the Expert Line and Line A will be done utilizing a laser timer, riders will break the first laser to start their time and will break the second laser to stop the timer. The Circle line will be timed with stop watches. The racer with the quickest time will be the winner of that group. We will award prizes to the top three riders in each group. Registration is being completed on Bikereg.com. The Pump Track Time Trial will be a new event for Hanover Township we are looking forward to everyone coming out to see who is the fastest around. All riders are guaranteed 1 race run and we will work to make sure every rider gets at least one practice run on the day of the event.
